

You get

STELL-★-MATIC

Electric Push-Button Tuning in the

STELLA for 1938

In addition to ordinary manual operation, you enjoy the instantaneous push-button tuning of this new STELLA model --"Centaurus S8." STELL-A-MATIC tuning is an exclusive STELLA engineering advancement. You push a button and

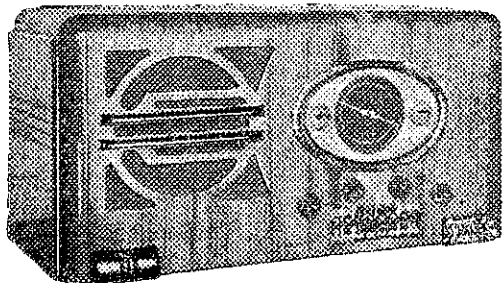

any one of 8 pre-selected stations is perfectly and clearly tuned in. The "Centaurus S8" is an 8-valve, All-Wave set with several improvements for brilliant, sparkling performance and absolute dependability. STELLA is designed by the pioneers of quality and craftsmanship. You will be thrilled with STELLA and its new STELL-A-MATIC tuning.
