

TRACES WEAKNESS, BLADDER SYMPTOMS TO FAILURE OF PROSTATE GLAND

... in Men Past 40

Symptoms formerly regarded as signs of old age in men and which made old age a time of wretchedness and miserable weakness for millions are now traced to failure of the prostate gland. Broken, Disturbed Sleep, Pains in Back and Legs, Headaches, No Vitality, Depressed, Worried, Despondent, Premature Ageing are often signs that this mystery gland is degenerating.

New Hygiene Brings Relief in 7 Days

Deep in the body of every man lies a tiny gland—the prostate. Every year, in thousands of men this gland becomes so seriously congested and swollen that the victims, who should be vigorous, virile men, become physical wrecks. Nature has warned them time and time again that this vital gland was failing them. Pains in the back, legs and feet—peculiar headaches they can't account for—the frequent need to get up at night—weakness and exhaustion—no vitality—all warn that everything is not right. Yet they take no heed. They think the night-rising is a sign of "bladder weakness" or a sign of approaching old age. They ignore the backaches, the leg pains, the fits of depression, the irritableness and peevishness, the feelings of weakness and exhaustion.

THE DANGER GLAND

The prostate, known as the "danger gland," lies right at the neck of the bladder. In men over 40 it is easy for this tiny vital gland—which is no bigger than a chestnut—to get swollen and inflamed. As it swells it partially prevents the bladder emptying itself. Poisonous matter which should be passed out of the body is absorbed into the blood stream, causing nervousness, muscular aches and pains, tiredness and weakness. If the swollen prostate is not relieved of the congestion and reduced to normal size early, it may cause a gland operation of the most dangerous sort.

65% OF MEN SAID TO HAVE THIS DISORDER

Medical authorities say that 65% of men past 40 are actively victimised by this danger gland. Thousands of men who have finished their working years and reached the retirement age and hope to end their days pleasantly, instead, due to prostate complaint, end their lives in misery. They may even become semi-invalids. Thousands more aren't even allowed to retire—the menacing onset of prostate gland trouble wrecks their earning power and they end their days not only in ill-health, but in poverty. And still thousands more are kept half alive by the nagging, weakening symptoms of prostate failure.

COMMON OLD AGE SYMPTOMS

But now, thanks to science, it is often so easy to check prostate gland ravages. Nature sends out hundreds of warning signals to the victim of swollen, congested prostate gland. Men who have to get up from two to ten times a night have a definite warning. Pains in the back, legs, feet, headaches, weakness and exhaustion, peevishness, depression, uneasy fears, muscular aches and pains, no vitality—all these warn of impending prostate trouble.

HOW 100,000 MEN HAVE AVOIDED SURGERY

A hundred thousand men to-day who heeded these warnings and learnt the truth about this danger gland have found a way to end the painful and embarrassing warning symptoms, side-step the danger which threatens them and escape dangerous gland-surgery. Science has not been asleep to the menace which threatens the health of so many men. One Continental Scientist has discovered an amazing new method which has brought remarkable results—often in less than a week. This new scientific method is one of the simplest, yet many, many men have said it saved them from dangerous gland surgery. This discovery uses no habit-forming drugs, no massage, no electricity, rays, etc. Instead, it employs an entirely new health-principle. So simple is it that men of 80 and more, living alone, have used it in their own homes. And so certain is its action that unless it makes you feel years younger in one week, it costs you nothing.

READ THESE AMAZING REPORTS

Thousands of men have related amazing stories of restored health, vitality and happiness. Mr. E.A.G.: "I carried out your treatment after being given up as only curable by removal of the prostate gland. Have suffered for years. After two months of your treatment I am quite cured. I am well over 60 years of age, and but for the treatment I think I would have been dead before now." Mr. H.L.R., age 64: "The treatment gave me quick relief several years ago when my prostate was found to be enlarged. Had the trouble for 22 years. It is going on for two years since I finished the treatment, and I have enjoyed wonderful health ever since."

I am 64, yet I can get about as busy as many men half my age. Can sleep right through the night. Have recommended it to other men and, as far as I can ascertain, it has been successful in every case." Mr. N.C.E.: "I received the treatment four months ago and followed it consistently. I had tried massage, electricity and other treatments without success. I am most thankful to have found such a wonderful treatment." Mr. J.V.L.: "During the last 12 years I have suffered from prostate weakness and I was advised to have an operation. But after taking your treatment I now say I am free of all signs of the trouble. My doctor says he finds no signs of undue enlargement," etc., etc.

FREE TO MEN—SCIENTIST'S BOOK

Find out all about this tiny gland called "The Middle Age Menace." An enthralling, clearly-written book, "Why So Many Men are Broken At 40" is being sent FREE to men who have reached this dangerous age. It gives the full facts about prostate weakness and full details of this startling new scientific discovery, which helps men preserve their health, strength and vitality, prolong their lives by curbing the ravages of this little danger gland. This book presents the facts collected carefully from the observations of leading specialists. It gives the experiences of many men who tell amazing stories of restored health and happiness through this new home prostate hygiene. It tells how these men, by following Nature's methods, avoided the knife and gained new vigour, new vitality, new strength in a matter of days. Find out from this new book now. Do not wait for the sick gland to tell you the details in a more unpleasant fashion. Simply fill in and mail Coupon.—Lavelle Laboratories, P.O. Box 1050, Auckland, N.Z.
