You can be there, too, in a flash with a STELLA—a grandstand seat at your own fireside and enjoy the thrill of every over! STELLA, with its exclusive features, gives you startling realism—a reception unequalled, that will transport you to the very scene so that you will see as well as hear. The 1938 models are magnificently built—portable as well as console. You can afford a STELLA.

Arrange a  
Home  
demonstration.
