

ristet, will make his reappearance before the microphone in a series of readings and talks, illustrated with music, on Hebrew literature.

Copyright

COPYRIGHT laws can sometimes be hard in the restrictions imposed. Because of copyright, hospital patients and others who look forward to hearing "One Man's Family" from 1ZB on Sunday mornings will now be debarred that privilege.

The service did what it could to

WILL BISHOP.

... Entertainer at piano, will be heard from 2YA on August 13.

continue their playing on Sunday of the session broadcast on the Friday night, but their efforts came to nothing, so no "One Man's Family" on Sunday in future.

Flesh And Blood

TWO popular Dunedin artists will be heard from 4YA on Monday night. Miss Meda Paine will give selected vocal numbers, and Miss Ethel Wallace will be heard in violin numbers. This delightful violinist is heard from 4YA more often than most people realise, for she is first violin in the 4YA studio orchestra.

Cavalcade

STOUT effort by the clerical, typing and copy-writing staffs of 2ZB during the week-end, was a two-nights' presentation of a colourful "Cavalcade of Nations," in which fine assistance was given by a number of nationals of other countries resident in Wellington, including a party of Hindus, who sang the traditional songs of India. Enthusiastic audiences rewarded the producer, 2ZB's Robbie, and Miss D. Roberts, assistant producer, who was also responsible for the dialogue. The organisation was in charge of Misses W. Kindred, M. Fitzgibbon and Joan Anderson, and Messrs. M. Adams, J. Ingle, W. Turner and G. R. Griffin.

For Children's Hacking Cough

Parties

4ZB has recently resumed its Saturday morning children's parties in the St. James Theatre. And hundreds of excited youngsters roll along eager to participate in the diversified fare offered by the management of the theatre and by the beloved Jill and Peter, of the station. The programme includes community singing, suitable pictures, and free chocolate for every child attending.

Industrial

RECORDED talks by Professor J. N. Richardson, Professor of Industrial Relations at Leeds University, are attracting attention at 4YA. The first talk was heard on Tuesday of this week. Next Tuesday Professor Richardson will speak on "Industrial Relations at Home and Abroad," and on the following Tuesday (August 16) on "International Industrial Organisation." Professor Richardson visited New Zealand to inquire into our arbitration system.

Sports Service

THERE are a number of owners of radio sets who use them almost wholly for the reception of sporting information—from race results to a description of how two gentlemen of the mat are fondling each other. These fans are exceptionally well catered for in New Zealand. Week-end sports re-

sults from all over the Dominion are neatly summarised, and 3ZB Christchurch takes its place as one of the best among the various information bureaux. This station has now increased its Sunday morning sports session by a quarter of an hour, and, at 11.45, gives out all that racing enthusiasts need to know. The sports "preview" of Friday nights, too, is attracting interest and congratulatory comment. As for interest in the cricket scores, the 3ZB sporting staff thinks nothing of telephone calls at 3 a.m. and 4 a.m. from inquirers.

Customers

AN Auckland retail house specialising in the sale of silks has advised Station 1ZB of a tidy bundle of mail orders following good reception in the far-away Cook Islands.

Strings

HAMILTON DICKSON String Orchestra has a large following of listeners, and another of this combination's musical programmes will be broadcast by 2YA on August 10. A feature of the entertainment will be a suite by Foulds entitled "Music Pictures," and a "Negro Dance," by White, based on the negro spiritual "Sometimes I Feel Like a Motherless Child." Supporting artists will be Millicent Penketh (mezzo-soprano), and Ken Macaulay, a well-known baritone.

DO YOU STILL GET CRYSTAL-CLEAR RECEPTIONS?

Is the reception as good as when your set was new? If not—your valves are failing. Have them tested free of charge at your nearest Ken-Rad dealer.
