

**But where  
is her nice  
woolly jumper?**

To sally forth in an evening sensation like this over a

corset meant for your tailored suits . . . well . . . you might as well throw the old bearskin

hearthrug about your shoulders

or ask your husband to top off his dress

clothes

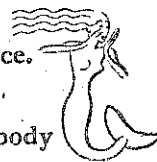

with his old tweed cap.

Every different type of frock needs its

own type of Berlei to give the right line. Here for instance, you see the perfect complement

to the evening gown . . . this backless Berlei is long enough to suit your siren elegance.

Smooth as a husband's excuses — and as flexible — it lies unsuspected, leaving your body

as free, lithe and supple as if you needed no control at all. Only a Berlei could achieve it.

For only a Berlei is built to fit your figure-type like a glorious second skin.

*For Berlei Beauty*
