Price, 3d.

**SUPER-SENSITIVE
SUPER-SELECTIVE
SUPER-TONE FIDELITY**

That's why the engineers named it
Super-HETERODYNE

RCA RADIOLA 60

Super-Heterodyne Table Model, complete with
Radiotrons **£45**

The three essentials of fine quality radio reception—sensitivity, selectivity and tone fidelity—are balanced in the Radiola Super-Heterodyne as in no other radio instrument.

The remarkable performance of this famous Radiola is the goal of every radio manufacturer. When you compare it in action with other high-quality radio sets your ears immediately tell you why the Super-Heterodyne is the accepted measure of perfection in radio design.

And any impartial dealer, if you ask for his honest opinion, will tell you that there's nothing to equal a Super-Heterodyne.

The Radiola Super-Heterodyne is no longer a luxury to be enjoyed by a few fortunate homes. It is an expensive instrument to build, but the cost of manufacture has been so reduced that this incomparable instrument can now be had for little more than the cost of an ordinary radio set.
