Super-Heterodyne is No Longer a Luxury

Since the art of radio broadcast reception was revolutionised by the introduction of the amazing Radiola Super-Heterodyne, this incomparable instrument has always been the choice of radio buyers who have sought the best.

Because of its remarkable qualities, the Super-Heterodyne principle is used in marine coastal stations, in the radio compass, and in the leading broadcasting stations where reception must take place directly under the transmitting antenna.

RCA RADIOLA 60

Super-Heterodyne Table Model,
complete with Radiotrons.

£45

Its unique circuit combines extreme sensitivity, very high selectivity and **FULL RANGE OF TONE REALISM**—superbly balanced as in no other radio set.

Go to your Radiola dealer—have him demonstrate the wonderful qualities of this leader of the Radiola line—**RADIOLA 60**.

You will buy it with the knowledge that there is nothing finer in radio than RCA Radiola 60—and no greater value for your money.

And now the incomparable Radiola costs no more than an ordinary wireless set.
