RADIOLOLA 47

has two exceptional surprises!

1. When you hear it

That is the first surprise. RADIOLOLA 47—the sensational Radiola-Gramophone combination—is a perfect reproducing medium. It has NO TONE OF ITS OWN. It gives only what it receives either from the broadcasting studio or from your records. Nothing has yet been put on the market with such unprecedented fidelity of reproduction.

2. When you ask the price

After listening to Radiola 47 transport the broadcasting studio right before you, and make gramophone records sound like the original recording, you will receive a pleasant surprise when you hear the price! That's a surprise your dealer has in store for you. Hear Radiola 47! Music from the Air or Record.

... and now the Radiola costs no more than an ordinary wireless set
