# GULBRANSEN

PRECISION BUILT  
SCREEN GRID RADIO

AT THE WELLINGTON RADIO SHOW

**W**ITH the introduction of GULBRANSEN RADIO, made by the world's largest makers of pianos, into New Zealand a few months ago, a musical instrument of undoubted superiority entered the radio field, and by its unchallengable merit and performance, Gulbransen has won its way to leadership.

Every model, whether it be the "9950" selling at £39, or the Radio Gramophone Combination at £85, has the same powerful nine-in-line chassis which gives wonderful volume and distance without distortion.

The beautiful cabinets, made by piano craftsmen, add grace and charm to any home, whilst the dynamic speaker assures a pure tonal delivery, either at full volume or the merest whisper.

### CHECK UP THESE GULBRANSEN FEATURES WITH ANY OTHER RADIO:

Efficiency of each set must measure within four-millionths of a volt of a master laboratory model.	Local distance switch.
Double primary circuit.	Nine valves in line.
