

Radio come True *and the Phonograph come to life!*

Have you heard the two NEW **PHILIPS** Radioplayers?

THOUSANDS during the last week have flocked to see and hear this new evidence of Philips leadership. Have you yet had an opportunity of realizing this wonderful advance in the technique of sound reproduction? If you haven't yet heard the Philips 2810, do so to-day. If you have, compare it with any other set at any other price.

Here at last is effective screen-grid amplification, new sensitive linear power detection, single life audio amplification, the new heavy duty penthode, and a completely new dynamic speaker. These new features mean ample sensitivity, low background noise, and unparalleled beauty of tone—the nearest approach to perfection yet achieved in musical reproduction.
