

Dangers of Navigation Notes and News from the North

Locating Icebergs

(By "Call Up.")

EFFORTS are still being made to devise a practical iceberg finder that will give infallible warning to an ocean liner of the presence of the danger.

Radio has been of some aid in preventing a repetition of a disaster such as that which caused the loss of the Titanic some years ago, but even this medium is not entirely successful.

American coast-guard ice patrols, by means of radio, are able to warn vessels of the presence of icebergs they have located, but no instrument has been found sufficiently practical to pay for its installation on liners themselves.

Sounding apparatus has been made which will detect icebergs a mile or so distant, but such apparatus is not very successful because of the speed of modern ships and the lack of accuracy in making distance measurements. The development of the radio compass, or directional-finder, however, now enables rescue ships to reach a boat in distress much more quickly than was possible at the time of the Titanic disaster.

THE IYA Broadcasting Choir will be heard next on February 11, when they will give another community sing from the studio. On April 1 they will present Gounod's "Messe Solennelle" (St. Cecilia Mass), with orchestral accompaniment.

THE Auckland District Telegraph Engineer advises that all listeners who take their receiving sets away for the holidays must first obtain temporary permits for the transfer. These permits are obtainable, free of charge, at his office, third floor, G.P.O., Building, Auckland. A number of people do not seem to be aware that whenever a set is moved to a new address the license must be amended, although this regulation is clearly stated on every receiving license.

A NEW theory of wireless interference is advanced by a listener of Mount Albert, Auckland. He suggests that patent orange drink machines which exhibit an intermittent light at regular intervals are a new cause of interference. This listener has tested

his set and the light on one of these machines, which are located at different places throughout the city and suburbs, and has found that the interruptions in his set correspond with the flashes of the machine light. As the light goes on and off once every five seconds throughout the twenty-four hours it can be seen that if this is a cause of interference it is a really serious one.

"UNCLE" REG has now definitely taken "Uncle" Tom's place at IYA, the latter having resigned last month. "Uncle" Reg is a clever entertainer both at the piano and as a singer, and should soon become a favourite "uncle."

THE Little Play Club under the direction of Mrs. Zoe Bartley-Baxter will present a three-act play entitled "Don," by Besier, from IYA on February 6. Among a number of new artists to be heard from the Auckland station during the next few weeks are Miss Nance Macklow, soprano, Miss Janet Brash, contralto, and Miss Joyce Houlo, an accomplished elocutionist, formerly of 4YA Dunedin.

OF all the present-day popular sports, from football and cricket to yachting and wrestling and many others, the only important one not so far broadcast by IYA is broadsiding. Nego-

tations for relaying a programme from the Western Springs Stadium were entered into early last year, but were not successfully finalised. The stadium is some distance from the station and possibly the expense of the relay would not justify it, but nevertheless, if such a feature could be incorporated in the IYA programmes, there is no doubt that it would be most popular.

THE news that 2YA Wellington is to have its silent night eliminated has naturally made local listeners more optimistic that IYA will also soon be on the air every night of the week. Mr. C. A. Tucker, president of the Auckland Radio Dealers' Association, says that local dealers regard the extension of 2YA's hours with great satisfaction, and that they hope to see a similar extension of IYA's schedule before long.

WHAT DO WOMEN WANT MOST?

BE A BRITON!

Read This Wonder Book

For a limited time you may get this wonder book free, if you act quickly. Its message and its many illustrations will amaze you. It contains matter of vital information that you should know about at once. Rip the coupon out and post TO-DAY!

ALFRED J. BRITON

Dept. R.R. 107 Pitt St., Sydney, N.S.W.

WOMEN want He-Men for their Husbands and Sweethearts—None of this chorus-man stuff for the real girl. She wants to be proud of his physical make-up, proud of his figure in a bathing suit. She knows that it's the fellow that is full of kick and vitality that gets ahead in this world. He's got the physical backbone to back up the mental decisions he makes. He'll win out every time.

LOOK YOURSELF OVER!

HOW do you shape up? Are you giving yourself a square deal? Have you got those big, rolling muscles that mean health and strength inside and out? The vitality that gives you the ambition to win out at everything you start. Make that girl admire you first and foremost for a real he-man, and the hardest part in winning her is over.

I CAN GIVE IT TO YOU IN 30 DAYS

IN 30 days I can make you over so that she will hardly know you. I'll put a whole inch of solid muscle on each arm in 30 days, and two whole inches of rippling strength across your chest. I've done it for thousands of others, and I can do it for you. I don't care how weak and puny you are. I like to get them weak and puny because it's the hopeless cases that I work with best. It gives me a lot of real joy just to see them develop, and the surprised look in their eyes when they step before the mirror at the end of 30 days and see what a miracle I have worked for them.

YOU'LL BE A HE-MAN FROM NOW ON!

AND it's no temporary layer of muscle I put on you. It's there to stay! With those newly-broadened shoulders; that perfect neck and great, manly chest, you can maintain your self-respect in any society. Every woman will know that you are what every man should be—a forceful, red-blooded he-man.

I WANT YOU FOR 90 DAYS

TIF at the end of 30 days you think you have improved, wait till you see yourself at the end of 90 days. Then friends you thought were strong will seem like children by comparison. I'm not called the Man Maker for nothing. My system scientifically builds real muscle faster than you ever imagined.

WATCH THEM TURN AROUND

NOTICE how every woman prefers the fellow who carries himself with head up. Notice how the broadshouldered man always gets their eye. They want a dependable he-man when they make their choice—one who can protect them. And you can be that man. Remember, I not only promise it. I GUARANTEE IT. Now don't put it off a minute. Get going to new happiness and real manhood to-day.

RIP THIS OUT — MAIL NOW!

I Dear Sir.—Please send me, absolutely
T FREE and without any obligation on my
IS part, a copy of your latest book, "The
F Secrets of Muscular Strength—and How to
R Acquire It." I enclose 6d. in stamps for
