

**SIR!**  
Your Copy of "Radio Sir!"

— awaits you at every principal radice dealer in your State.

Between the covers of "Radio Sir" are crammed seventy-two pages of radio information, most of it new and hitherto unpublished.

The construction of an Auto Receiver and how to fit it to your car: the PCJ-5, 1931 wonder short-waver: the Economy Twin, a low-priced A.C. Receiver: a 400 volt Amplifier: a simple converter so you may listen in to the short waves on your broadcast set: long unusually interesting and easily understood articles on valves, audio frequency coupling, power supply apparatus, condensers, pick-ups, speakers, etc., etc. are really but a few of the features which make it imperative that you spend 6d.

You **MUST** have a copy if you are interested in radio in any form. Today—NOW—is a good time to buy "Radio Sir."

If you are unable to obtain a copy of "Radio Sir" from your dealer please post to Philips Lamps (N.Z.) Ltd., at any of the addresses at the foot of this advertisement.

Please mail me immediately a copy of "Radio Sir" for which I attach 8d. in stamps.
