

Mr. Full O'Power

ANNOUNCES

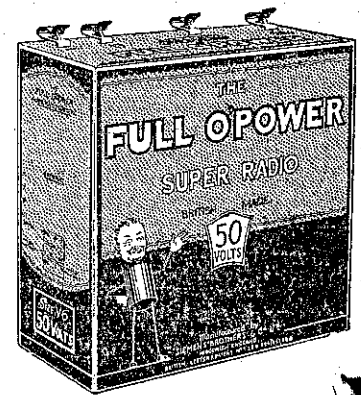

that enthusiastic reports are being received from users trying the new FULL O'POWER BATTERY for the first time. In performance, efficiency and length of life these wonderful new Batteries make a very striking advance over the ordinary types. This is made possible by the application of *automatic machinery* and entirely *new methods* of manufacture.

AND THE PRICES ARE RIGHT!

You cannot know until you have tried one how much improved will be your loud speaker reproduction, and this is maintained throughout the life of the battery.

Ask your Dealer to-day about "FULL O'POWER," or send for FREE illustrated booklet to the sole N.Z. Distributors.
