FORGET THIS

---at your cost

DURING the last three years the world's great broad-
 casting stations have spent literally millions of pounds to
 instal transmitting equipment which will send out the
 complete rich range of the sound waves produced in the
 studios by vocal and instrumental artists. Present-day
 broadcasting, therefore, sounds as real and as faithful as
 if you were in the studios, but how much of this realism
 does the average listener get? The answer is: exactly as
 much as can be received by the radio set he is using—and
 no more! Outside the listener's home, the crisp night air
 may be filled with wonderful music of utter perfection of
 tone. But the only part of this which the listener and his
 family can hear will be that which can come through his
 receiver and speaker undistorted. If his set is an up-to-
 date, well-engineered receiver he will receive, in his own
 living room, the music exactly as it is being played in the
 distant broadcasting studio.

Stewart-Warner Radios are the finest produced in
 the industry and give you most music, and most program-
 mes at lowest cost.

We, the Stewart-Warner Radio Division of Hope
 Gibbons, Ltd., through our hundred dealers, are out to
 "deliver the goods" at a reasonable price. Take a pride
 in the job and get perfection in your new radio by saying
 it must be a Stewart-Warner installation. You can then
 be sure that you will be satisfied a year from now.
