

**MADE LIKE
A WATCH . . .**

What precision! It's evident to anyone who examines one of the new Osram 2.5 Valves that their construction is out of the ordinary. What reception when you put them in your set. Not the slightest trace of microphonic noise — only pure, clear tones from the highest to the lowest registers.

The complete range of Osram Valves, including the following 2.5 Volt Series, is available at your radio dealers—MY 224, MY 227, MX 245, MX 280.

Osram
2.5 *ac* **Valves**

Made in England

MY 227 is a recently developed Detector or first-stage Audio Valve, with indirectly heated Cathode for A.C. Sets. Non-microphonic.

"Where the Quality Goods are Sold"

The Permadyne—the latest development in the Loud Speaker Field.

Perfected Reproduction

- Q The New Standard Permadyne Speaker has been acclaimed throughout New Zealand for its startling clarity of tone, its wealth of rich undistorted volume, its crispness and brilliance in upper register.
- Q There are positively no other speakers, irrespective of cost, which can compare with the Standard Permadyne in respect of quality of reproduction.
- Q Built on the very latest permanent magnet moving coil dynamic principle, with 10½ inch cone. It is the equivalent of a dynamic and is of the moving-coil type, but has the definite advantage that no field excitation is required.

First Shipment Almost Sold Out—Order your Permadyne Speaker Without Delay.
