

# Osram... noiseless efficiency

*This*

**OSRAM**

**SCREEN-GRID VALVE MY.224**

*is made in England*

If your radio incorporates the screen-grid principle you will find that its working will be far more efficient if you substitute an Osram MY. 224 for your present screen-grid valve. The new Osram series of 2.5 volt valves is definitely non-microphonic—the only valves that are truly insensitive to vibration or shocks.

You can test Osram '2.5' superiority at your Radio Dealer's. Ask to switch on any set, tune out all stations and tap the 224 or 227 detector. If it is microphonic the speaker will emit a pinging noise, indicative of imperfect reception. If the microphonic valves are replaced by Osram 2.5s, tapping will result in silence.
