

# MAKE SURE OF COMPLETE RADIO ENJOYMENT..

**FIX A  
PIX  
IN YOUR  
AERIAL**

**AND GET ALL THE  
STATIONS YOU WANT.**

Increase the range and selectivity of your set. Put this neat 3-in-1 gadget in your aerial. Cut out those powerful and local stations that literally "swamp" your set, and bring in clear and loud those elusive foreigners. With a PIX you get super-het. range, and knife-edged selectivity, and get all the stations you want. A PIX is better than an extra screened-grid valve and costs only 3/6.

**- - - CUT OUT THOSE  
POWERFUL LOCAL STATIONS  
AND BRING IN LOUD AND CLEAR  
THOSE ELUSIVE STATIONS  
YOU'VE ALWAYS WANTED**

**AWAY WITH  
WAVE TRAPS**

and other complicated gadgets for cutting out powerful and local stations. Just fix a PIX in the aerial lead-in wire—so simple and yet so efficient. No tuning knobs, coils or plugs. The results will amaze you, as they have already amazed over four hundred thousand PIX users all over the world. There has been nothing like it before. It is a veritable masterpiece of ingenuity, and a revolutionary idea.

**A PERFECT  
VOLUME CONTROL**

If you have a multi-valve set and the volume is too great for the ordinary room and detuning causes distortion or dual programmes, fix a PIX, and you can control the volume down to a whisper without distortion. The amazing success of the PIX has been entirely due to its efficiency, and because it does all we have claimed.

TRADE ENQUIRIES MAY BE SENT TO ABOVE ADDRESS.

Clip the Pix to your Set, wall or window-ledge, etc., if desired, with this handy, extra fitting. Ready mounted on drilled insulated base with screws. Although not essential to efficient operation of the Pix, makes tuning easier and provides a neater method of fitting.

A PIX can be fitted to any type of set, whether crystal, battery, or mains operated with or without outside aerial. Just undo the wire from the aerial terminal and connect same to one end of the PIX and join the other end to the aerial terminal. By opening or partly shutting the PIX you can cut out powerful or local stations, and tune in with ease those elusive foreigners. Also reduce or increase volume. Beware of imitations.
