

KNOW WHERE YOU STAND

with your Radio!

The Radio Call Book gives all the information necessary for you to tell immediately the exact station you can tune in at any time. In it you will find a complete list of New Zealand and Australian stations, with their operating schedules and an up-to-date list of New Zealand amateur transmitters. All the American stations over 250 watts in power, including their full address, are also given, together with a representative list of South American stations. This Radio Call Book also contains a list of Japanese, Chinese, Siamese and Far Eastern stations over 1 kilowatt in power, and all the European stations with a power of over 10 kilowatts. Imagine the difference when you want a certain station—just a glance at this valuable little book and you can tune in the exact station straight away.

This 40-page book is made just the right size for your pocket, and is full of information for all who listen in.
