10.0: Sports summary.

10.10: Dance music.

PILLARS OF THE LAW

EVEREADY RAYTHEON VALVES

When the radio sets in the New York Police cars were equipped with Eveready Raytheon Valves, it was because of their special

four-pillar bracing of the delicate electrodes.

It was found that these four pillars (instead of the usual two) prevented any chance whatever of the highly sensitive filament, grid and plate, being displaced through the shocks of driving; ensuring faultless reception under any condition called for in the suppression of crime. To the Patrol-Car Police these two extra pillars are vital, and only Raytheons have them. To YOU it means definitely clearer reception and longer life, and once you've heard Raytheons nothing else will satisfy you.
