

The New Farrand Speaker

has Undeniable Advantages!

So great has been the demand for the New Standard Improved Farrand Inductor Loud-speaker that stocks have been completely sold out. Another big shipment has arrived, however, and deliveries will now be made with the quickest despatch. While any delay is regretted, the great demand which caused it is the strongest possible support of the contention of leading radio engineers that the Inductor Dynamic is destined to supplant other types more completely than the Cone-type Speaker replaced the Horn-type a few seasons ago. Full information is contained in pamphlet distributed to all dealers. Ask for a free copy.
