

# Newest Nightdresses Have Sleeves

When making your new Spring lingerie, remember that colour is important. Underwear should be the colour of your costume or of its accessories. Materials to be used may be of crepe de chine, lustreless satin or silk linen. In Paris smart women are wearing long-sleeved nightdresses, and necks take the upward trend following the mode of our daytime frocks. When planning your summer outfit, bear in mind that linen will take a foremost

place among the smart women. This may take the form of a swagger coat, a suit, a frock, or a blouse, hat and gloves, but some part of the wardrobe must be linen.

Cotton fabrics will be much used for summer evening frocks; organdie being one of the favourites, its crispness lends itself to the flared shoulder frills.

Ribbons are taking a prominent place in the fashion world to-day. Frocks are ribbon-trimmed and sashes are coming into favour again. As for flowers, they are to adorn everything — hats, skirts, bodices, handbags, and even summer muffs are to be made of artificial posies.
