

INTERFERENCE-FREE

RADIO RECEPTION

At last!

TOBE AERIAL FILTERIZER

STOPS RADIO NOISES

The Tobe Filterizer Kit will definitely reduce electrical interference. It has been developed for radio set owners who have serious reception difficulties that are due to radio noises of unknown origin or to man-made static created by apparatus beyond the control of the individual broadcast listener. When the Filterizer kit is correctly installed, it should enable anyone to obtain clear, interference-free radio reception. The Tobe Filterizer Kit may be used with any type or make of receiver and may be depended upon to provide maximum freedom from local interference, without loss of signal strength. It has already proven its worth in N.Z.—A well-known N.Z. radio dealer writes: "We found the results to be the same as you described."

New shipments just to hand. Supplies available from all responsible Radio Dealers.

PRICE—Nett **49/6**

Factory Representative:

SPEDDING LTD., P.O. Box 462, Auckland.

**The something to
Put on the Radio
Set that you**

have been looking for ever
since crashes of man-made
static first spoiled a radio
programme for you!
