10.0: Close down.

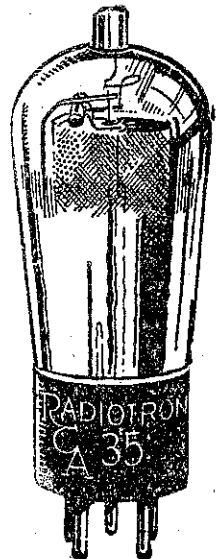

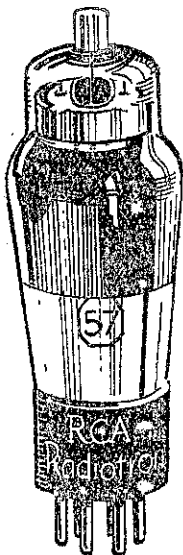

RADIOTRONS

LEAD THE WORLD IN SALES

*Because of World-Wide Leadership in
Research, Engineering, Manufacturing*

R.C.A. Radiotrons are the Standard of comparison wherever Radio Valves are used. The quality of other valves is measured by their ability to compete with Radiotrons on a performance basis. :: This world-wide, first-place rating of Radiotrons is indeed based on fact. Radiotron research laboratories are the largest and most productive on the face of the globe. The factories are unmatched anywhere for completeness of equipment, modern methods, skilfully trained personnel. First in research, first in engineering, first in manufacturing—no wonder RCA Radiotrons are also first in sales throughout the world—New Zealand included!
