MINISTUDIO

PORTA ONE THE CREATIVE CONNECTION

Price: \$1985

The MINISTUDIO is an electronic music "notebook". Anytime you get a great musical idea, anywhere you are, just turn on your MINISTUDIO and record that fantastic phrase just as you conceived it. You can then go on to develop your idea by adding more tracks—whenever you like. The MINISTUDIO is the ideal tool for composers, lyricists, arrangers, or anyone who wants to work out musical concepts without having to worry about the place, time or budget.
