RIMS™

RESONANCE ISOLATION MOUNTING SYSTEM
A PROFESSIONAL DRUM PRODUCT FROM THE U.S.A.

Q. WHAT DO THE FOLLOWING FAMOUS DRUMMERS — PETER ERSKINE, JEFF PORCARD, RAYFORD GRIFFEN, LARRIE LONDON, MYRON GROMBACHER, GRAHAM LEAR, CHESTER THOMPSON, HARVEY MASON, JIM KELTNER, VINNIE COLAIUTA, KENNY ARDNOFF AND HUNDREDS MORE HAVE IN COMMON?

A. THEY ALL USE R.I.M.S. TO MOUNT THEIR RACK AND FLOOR TOMS.

R.I.M.S is a most effective yet simple tom mount system which gives you back that BIG honest sound currently robbed by your present tom mount system. R.I.M.S. "floats" your toms, giving you more projection, clean uninhibited resonance and tone, greater pitch range, and a total fundamental sound with more bottom end punch! Gone is the compromise on total kit sound because of that one (or more) problem tom. R.I.M.S. will clean up your WHOLE act. Fits most known kits. Want to know more? For a free brochure and prices, write, call or phone:
