

WARNING

IF YOU'RE THINKING OF BUYING A NEW PAIR OF SPEAKERS...

STOP!

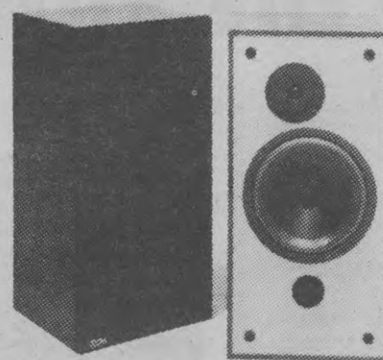

A SIGNIFICANT ADVANCE IN SPEAKER TECHNOLOGY

ENERGY 22 PRO MONITOR

Every so often, a new product comes along that stands an industry on its ears. The Energy 22 Speaker is such a product. If you've been thinking about buying B & W, Kef, Mission, or any other quality name brand loudspeaker, think again: **Energy 22** delivers performance that is a unique combination of accuracy and excitement virtually unmatched by other loudspeaker designs.

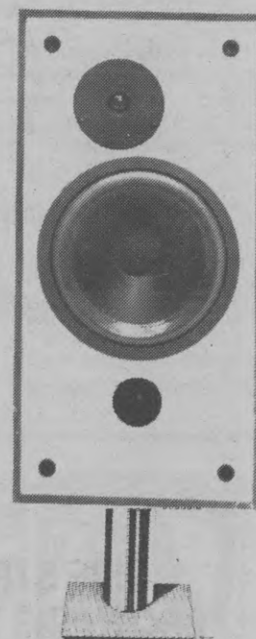

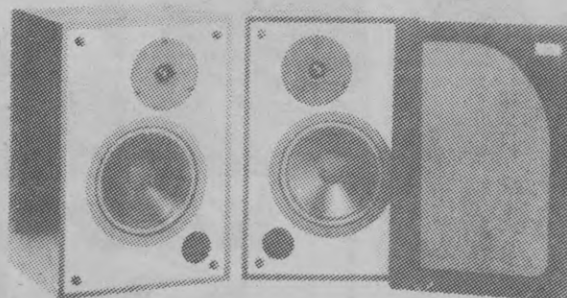

The ESM-3 is a two way system utilizing a 200 mm polypropylene woofer and a 19 mm polyimide soft dome tweeter. The ESM-3 delivers smooth, accurate response from 45 Hz to 20 KHz with excellent off-axis response and extremely low distortion. These benefits allow you to get much more out of musical home entertainment.

An audiophile quality mini-monitor loudspeaker suitable for bookshelf mounting, video speakers, excellent sounding rear-channel speakers in a surround-sound application.

"Exceptional overtone balance" . . .
"Imaging was just about the best I've heard from a 2 way design . . . excellent dynamic range . . . it sounds great . . . no real compromises in its design . . .
Anyone looking for a \$3000 to \$4000 system would be foolish not to carefully audition the **Energy ESM-2** . . . one of the most impressive \$1100 a pair speakers I have ever heard . . . amazing at the price.

FREE!

Five meters Audio tech speaker cable worth \$70 with every pair of Energy speakers purchased. Offer expires April 30 1987.
