... *the evidence is mounting* ...

"They are faultless craftsmen... Every note is a shining thing, every instrument a silver drop onto the tape heads." **NME**

"... a band to watch for the future."

MUSIC WEEK

"The Big Dish's album is high quality melodic pop with both sentiment and intellect making the songs a bit special. As crafted melodic pop goes, it's probably the best thing recorded this year." **MELODY MAKER**

"The Big Dish's first album is unlikely to rate on anyone's low cred scale, because 'Swimmer' is a beautiful collection of tunes and stories, held together by some intriguing vocals and guitar."

RECORD MIRROR

"... Stephen Lindsay, singer and composer, is writing our finest pop songs of today..."
