SUICIDAL TENDENCIES JOIN THE ARMY

Morally indefensible in the extreme and repugnant to all right-thinking citizens. This is the sound of pissed-off, cross-patch L.A. youth. Tantrum anthems to hate your parents to. "Join The Army" proposes we all take up skate-boarding to alleviate the stress of not knowing where the next cheeseburger is coming from. Experience the horror of skate-core speed-metal in private!!!

DANNY WILSON MEET DANNY WILSON

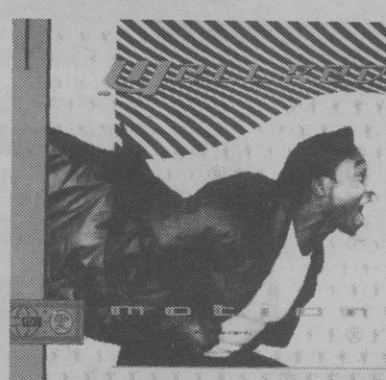

Meet Danny Wilson. No ordinary bloke this. Three extra-ordinary and hugely talented blokes. Yes! Danny Wilson is a band.

"What we have here is the best debut album likely to be released this year" **Music Week**
"Compelling proof that there is life in Dundee"

Record Mirror

"A meticulous craftsmanship and audacity to be different... inspired" **NME**

WELL RED MOTION

Well Red are Richard Stevens (fresh out of the drum seat of Linton Kwesi Johnson's Dub Band) and Lorenzo Hall — two South Londoners who have taken the UK dance floors by storm:— Britain's-in-the-80's answer to funkadelic.

"... a heady buzz in dance floor circles" **Music Week**
"Put the two together and you've got well cred. Mix some prominently drum-based dance floor funk with soulful gutsy vocals, and you've got a winner" **Record Mirror**
CD contains five 12" versions and three extra tracks.
