

15,000 students can't be wrong.

The student city

It's the unique Dunedin experience. Whether it's the University of Otago, Dunedin College of Education, or Otago Polytechnic, it's all right here in Dunedin.

All three are located together in a joint campus with halls of residence and many of the student flats close by, making it a great social and convenient place to study.

With the campus located almost in the centre of the city, a city that welcomes and embraces its student population, it really is New Zealand's only true student city. And with new friends you'll discover Dunedin has the best of everything you'll want in recreation and sports, and also find yourself at the gateway to New Zealand's great southern playground.

So, write or phone us if you want to find out more about combining the best of tertiary education with a great lifestyle.

Dunedin.
It's all right here.
