ALANIS MORISSETTE

"JAGGED LITTLE PILL"

21 year old Alanis Morissette's third album **JAGGED LITTLE PILL** will in years to come be considered one of the classic albums of the 90s. **JAGGED LITTLE PILL** articulates a multitude of emotions, thanks to Morissette's clear, expressive voice, capable of both forcefulness and vulnerability. She has used her own experiences to produce a brutally honest, frequently provocative, melody-drenched masterpiece, that once heard, won't be forgotten.

RED HOT CHILI PEPPERS

"ONE HOT MINUTE"

ONE HOT MINUTE has been one long awaited album. Featuring 13 new tracks from the inimitable Red Hot Chili Peppers, **ONE HOT MINUTE** is the follow-up to the band's 1993 smash album *BLOOD SUGAR SEX MAGIK*, and the first RHCP release to star former Jane's Addiction guitarist Dave Navarro. Featuring the most original and exciting music of the group's career to date, **ONE HOT MINUTE** is a fine example of the classic Chili flavour that makes them impossible to ignore.

LUNA "PENTHOUSE"

With two ex-pats on board, how could they be anything less than stunning. Guitarist Dean Wareham and bassist Justin Harwood (ex-Chills) are one half of the New York-based four-piece Luna, a band whose genius as a modern rock outfit has been declared on their two previous long players, and again on their latest effort **PENTHOUSE**. Packed with the atmospheric, swirling pop gems that have become Luna's trademark, **PENTHOUSE** sits alone at the top of the pile, amongst today's current crop of alternative guitar albums.

For centuries Chinese music has been seeking a type of spiritual release, this search has a unique dignity of its own, and is evident in the debut album by Dadawa. **SISTER DRUM**, inspired by the lifestyle and culture of the people of Tibet, breaks ground in many ways. Its sound stretches far from traditional Chinese compositions to embrace new age instrumentation, mystical drum rhythms, soaring falsettos, and serene choral harmonies. **SISTER DRUM** is an uplifting recording, that crosses any and all musical boundaries.

SUGAR RAY

"LEMONADE & BROWNIES"

LEMONADE & BROWNIES is the debut album from LA's Sugar Ray, and is a wildly electric affair. For that, look no further than the first single from the album, the intoxicating 'Mean Machine'.
