CAN'T TOUCH THIS!

**Only Numark brings
you the first family
of twin-transport
professional CD players.**

If you are ready to move up to CD mixing, make Numark your first stop. Only Numark offers the first family of twin-transport CD players with the perfect blend of features, performance and price.

When we introduced the world's first twin-transport CD player, the CD6020, vinyl jocks started warehousing their record collections. With features like Beat Sync™, it was almost impossible to say no to CD mixing.

Now with our new budget-priced CD5020, professional CD mixing is within reach of anyone who can afford the price of two professional turntables. Like the CD6020, the CD5020 features two pitch controls, repeat functions and two large Stop/Start buttons. For added mixing ease, the CD5020 also features audible stutter cuing with separate monitor level controls and stereo headphone jack.

So remember, when it comes to professional CD players, you can't touch Numark for price, performance and features. You can believe that!

Numark
