

# Notes on Manuscript Accessions

## A SELECTIVE LIST OF ACQUISITIONS, JULY TO DECEMBER 1982

Acquisitions of manuscripts are listed selectively in the *Tumbull Library Record* to alert scholars to newly acquired material judged to be of research value. For items marked 'Access subject to sorting' or 'Restricted' the Library would welcome notification that access will be sought, preferably with an indication of a likely date. This will help the staff in establishing priorities for sorting collections. The following list updates the Notes in the *Record* for May 1983. Material produced by the Pacific Manuscripts Bureau and the Australian Joint Copying Project is not listed except for items copied under the latter's Miscellaneous series. New accessions for the Archive of New Zealand Music are listed in *Crescendo*, the bulletin of the International Association of Music Libraries (New Zealand Branch).
