AUTHENTICITY IS the stamp of Gonophone news this week - it all came from " the High-Ups " What you hear there is repeated everywhere and back to the Gonophone. : : The week started with the story that Ligut, Mann, our liasion officer at Noumea, had been run over by a car, by noon he had been crushed by a truck, flattened by a tank trans convoy. This was followed by old favourite, the Burma Road. Alo: this road the Second Front was to blaze the trail for WORKS & what WORKS was to blaze was a little vague. That was quickly followed by another road ascident. Some W.A.A.C.S had been upset; only two then four and then a car load. : : BY Friday the News was well under way with headlines from the "Forward Area"... The General had told someone, who told someone elr who told a guard, who told a sappethat all N.Z. Worces new in Pacit Area would be home by January of 44. By evening mess the General had addressed the troops on the question - it was not and fox ho? were vacated, or whether the mess ge was relayed to thom. Finally, the wise gys said that demobilis - ation must be close otherwise DOZ DUST would not be investigating post war occupations. Latest wriggle from Gonophone is : " What do

you know ?" ... Thats all folks.
