

SPORTS SLANTS

Spectators at the weekly meeting of the Papakura Amateur Athletic Club again saw the Camp team much to the fore.

A new member to the team, Pte Dow, won the 100 yds off eight yds in 10 $\frac{3}{5}$ sec. The remainder of the team are gradually moving towards the scratch mark and really have to run to gain a place.

Both Cpls. Nairn & Dove are well back in the ladies events but will show something when the club Championships start.

S/Sgt. Roulston's run in the 880 yds was the most exciting event of the night - he came through from scratch mark to finish second.

Sgt. Sutherland is the scratch man in both shot & discus, and will also win the club Championships, probably smashing all their local records.

The local club is particularly interested in our Camp athletics and spares no effort to assist them.

The Furlough Draft had complete mastery of the conductors baton on the Cricket Oval on 14 Feb 44 when they were instrumental in lowering the Bands colours. 101 - 42.

CAMP SPORTS

Each Wednesday afternoon brings the Camp Trainees to the Sports area to participate in what ever the P.T. Staff have to offer.

BASE BALL

All members of the male sex who are desirous of obtaining a WAAC for a wife should first consider their ability to wield a rolling pin. If the performance given of the wielding of baseball bats has any influence then my advice is for the prospective husband to transfer his attentions to some other branch of the service (Domestic service suggested)
