WAAC JACKS.

who is the musically-minded member of the M. E. Furlough Draft who is dividing his time and talents with equal success between two brown-eyed Waags?

We notice the men turning interested eyes towards the new personnel in "B" Block. Permanent Waacs would do well to look to their laurels.

We would like Pte, Ruth Simpson to note that Hut 2 is not the best place in which to ride a bike.

Join our Housewifery
Sessions!! Sweeping
classes held on the bull-
ring after every storm.

It is with regret that we say farewell to "Paddy". Sigs. have gained and Papakura has lost one of its best known identities. We wish "Paddy" all the best in her new job.

Felicitations to Pte Jean
Dakers and Cpl. Moreland
Reed (U.S. Army) on their
engagement. Attn: love grand?

Why does the mere mention of the "Pumpkin Patch" cause so much laughter in Hut 2?

Our opposition in the newspaper world, the "Auckland Star" has scooped the story about the curfew to be rung in city streets at 9 p.m. (2100 hrs. to the initiated) for the benefit of females between the age of 25. Don't worry, younger Waases! Don't forget the train takes an hour to get to Elronui and think of the long walk up to "B" Block.

We thank Cpls. Burt & De
for moderating their foot-
steps when taking the bed
check at 0100 hrs. An ounce
of consideration is worth
more than a salvo of shoes.

The Exchange Waac rang through to the Adjutant. "Sir, would you mind going in to the Camp Commandant's Office to see if his butt is pressed in? -----"

THE CAMP STAFF.
