AEWS appears to have a negative side. Intervening cyclists about the case will learn how not to ride a by-cycle from one side to the other.

## SHOCK FOR CAMP

Have you got a good grip  
of yourself? You'll need  
it! Prepare for the  
news - Hut 1A (1 Block)  
has been scrubbed out!!!  
When Lieut. Jones heard  
that this had occurred,  
he swooned away. It was  
not until someone made  
a noise like a Special-  
leave application that  
they were able to bring  
him round.

It is said that the long-forgotten body of a member of the I.T. staff was found among the debris. What were thought to be beams strengthening the mud floor of the hut turned out to be a few spare goal-posts.

Everybody threw themselves into the work with the exception of a few bludgers like Trevor & Shorty. Sgt. Sutherland came to the fore as an expert in strategy, while Staff Yates gave a fine exhibition of wrist work with a hose. Sgt. Jones talked a lot.

Special credit must go to your Editor for some fine work. His determination and resoluteness were largely responsible for the success of the operation.
