

PEDANTIC PHRASIOLOGY.W.O.11. PARKER.

Transport was given a form to fill in. One of the headings was-"Nomenclature". All sorts of suggestions were forthcoming as to what it meant - from "Number of Children" to several which we would rather not repeat, thank you. When they admitted themselves finally stonkered, someone got the bright idea of calling in school-teacher Crowe who solved the mystery for them. One Driver was heard to mutter. "If that's what they meant, why didn't they say so?"

Transport have a Driver named Crowe
Whose driving is terribly slow

When he gets heavy mails
That's the time when he wails
By jove what a terrible go.
.....T.S.

Now that Sgt. Rollinson has gone Hut 1A is only 75% as noisy.

We would like to know how WO.11 Mick Harnick works this leave "racket" Christ-church in December January, & March. Seems to be the "goods" if you are in the know eh Mick?

Our Ernie's been promoted
On his sleeve he wears a crown
He's always got it polished
And his head is bended down

Our new R.Is are a nuisance
As Ernie will agree
Cos he has to check them over
When he's had his tea.

We often make mistakes
When calculating figures
And then Ernie jumps on us
While Sgt. looks on and sniggers.

But Ernie's got it working
With his best ability
So there's no ace in us shirking
And we work so willingly(!)
.....Driver X.

TRANSPORT WORKING BEE.

On the 17th April the members of our Local Transport were seen busily engaged with rakes and brooms cleaning up their park. I wonder what caused this. Maybe they are going to issue a challenge to the W.A.A.C.s of B Block. Bullring fame. (I wonder)

For the Camp gossip talk to "Pidoo" Pope found occasionally in the equipment store.
