## BASKET BALL

A keenly contested competition is now in full swing. Teams are training well and already some very fast and hard games have been seen. The surprise of the week was the defeat of Movement Control (Rigg's Ruffians) by the Duck and Quack (Johnson's Gentlemen). The Ruffians displayed an excellent combination and territorially had the better of the game. Unfortunately they fail -ed to make the ost of their un ortunities to score. On the other hand the Gentlemen saw very little of the ball but managed to turn it to good account on those rare occasions when it came their way.

Final score Gentlemen 8 Ruffians

The Holy Joes are a formidable combination. On Friday in a fast game they beat the Provosts by 14 to 1. A feature of the game was excellent goal shooting by Padre Goffin and Wally Policy. The shooting at goal of the Provosts left much to be desired, but improvement in this aspect of the game would make them a team to be reckoned with.

In the provious week's games the Workshops decisively defeated Duck and Quack 16 to 4, and after a strenuous game

ALEXANDER TURNBULL LIBRARY WELLINGTON, NEW ZEALAND Movement Control defeated Provests 8 to 4.

This week, Signals won by default from Camp Staff.

## TABLE TENNIS

The end of the first round changed the placings in the Table Tennis somewhat. Dead and Mental in a good series of games defeated Duck and Quack 10 - 8. This now places Dead and Mental in the lead. There were, however one of two matches not played last week and when these are played off the position will be clarified.

## DUSK DIPLERS

The organised swim parade at 1630 hours daily will be designated "Dusk Dippers" to distinguish them from the "DAWN DIPPERS"

## The Passing of Pearson

Alan Pearson has departed for Records leaving an aching void in our hearts, and what is more serious, a vacancy in the position of assistant Editor of the TRAMP. He was suitably farewelled by the DAWN DIPPERS by a rendition of a revised version of one of the Padre's choruses. -No use asking for the words Padre. You couldn't use them.
